

Consignment - we take care of your surplus stock

Do you want to get rid of your surplus stock? Let TMS Electronics manage your surplus stock of electronic components.

- ▶ Our knowledgeable staff makes sure that your components are handled properly and sold at the best price. We also verify that your components have the correct manufacturer's product number. Our logistics hubs are located in Sweden, Spain, the U.S., China and Hongkong.
- ▶ Storage and handling of components comply with ESD safety standards (IEC-61340-5-1). Our warehouses have as well burglar alarms as emergency service alarms.
- ▶ All transactions are reported in real time on a password-protected extranet that's easy to understand and use. Further more, material owners have round-the-clock access to sales information.

Visit our website at www.tmsel.com. Here you'll find everything quick and easy to access and all in one place.

TMS Electronics AB -
your complete partner
